Cyberstalking refers to the use of the internet, social media, and other digital platforms to harass, intimidate, or stalk an individual.

Signs of Cyberstalking:

- Receiving unwanted or threatening messages
- Being tracked online
- Having personal information shared without consent
- Being impersonated online

Victims of cyberstalking often face severe emotional and psychological distress. Unlike traditional stalking, where

techniques.

individuals can take physical measures to protect themselves, cyberstalking intrudes into private spaces such as homes and even minds, via online intimidation. Victims can feel isolated, paranoid, and constantly fearful.

If you believe you are being cyberstalked:

- Document all incidents
- Limit your online presence
- Change passwords and security settings
- Consider contacting law enforcement or a support organization
- Regularly monitor your accounts

Cyberstalking is a growing threat, and as our lives become more intertwined with the digital world, it's vital to stay informed and protected.
