Tips To Keep You Safe From Hacking

Protecting personal information from cyber criminals is crucial.

About Us

Since 2000, BCSI Investigations Inc. has performed thousands of successful investigations. Our integrated team of investigators and support services ensure that the investigations are conducted promptly with leading-edge techniques.

With over 40 years of combined experience, BCSI Investigations Inc. is the platinum standard for private investigations.

Hackers are more sophisticated than ever, but these simple strategies can help you stay one step ahead.

1. Strengthen Your Passwords

- Use at least 12 characters.
- Avoid using personal info like names or birthdays.
- Consider a password manager to create and store secure passwords.

2. Enable Two-Factor Authentication (2FA)

Adding a second verification step, like a code sent to your phone, makes it harder for hackers to access your accounts even if they know your password.

3. Watch for Phishing Scams

- Check sender email addresses.
- Avoid links and attachments from unknown sources.
- Verify requests if something seems suspicious.

4. Update Your Software Regularly

Enable automatic updates on all devices to protect against new security vulnerabilities, and prioritize critical updates labeled as "security-related."

5. Use Secure Wi-Fi and VPNs

Avoid sensitive transactions on public Wi-Fi. Use a VPN (Virtual Private Network) to encrypt your data and secure your connection.

6. Be Aware of Social Engineering

Contact us at 604-922-6572 or visit our website at www.picanada.ca to learn more.

our
Website

Hackers may impersonate trusted contacts to gain information. Always verify requests before sharing personal details.

7. Monitor Your Accounts Regularly

Set up alerts and check your statements for any unauthorized activity.

8. Back Up Your Data

Regular backups can help recover your information in case of a cyber attack. Keep backups stored separately from your main device.

Implementing these tips can protect you and your information. Stay safe and vigilant!

Thank you for trusting [BCSI Investigations](#) to keep you informed and protected.
